

EL INTERNET DE LAS COSAS

AVISO IMPORTANTE

Todos los datos estadísticos de esta presentación son

“ABSOLUTAMENTE FALSOS”

Esta presentación fue originariamente creada el lunes 13/11/2012 a las 00:16 horas.

La velocidad a la que la tecnología evoluciona hace que las cifras cambien cada milésima de segundo. Es imposible aportar datos en tiempo real.

En todo caso, el contenido de esta presentación tendrá sentido en los próximos años.....

iii LOS TIEMPOS CAMBIAN !!!

1992

The image is a collage of three screenshots from 1992, illustrating early web technology and its applications.

Top Left: A screenshot of the "WorldWideWeb" application window. The menu bar includes "File", "Info", "Navigate", "Document", "Edit", "Find", "Links", "Style", "Print...", "Page layout...", "Windows", "Services", "Hide", and "Quit". The main pane displays the "Home" page of the "Welcome to the Universe of HyperText" project, featuring a "How to proceed" section and a "General CERN Information sources" section.

Bottom Left: A collection of 12 colorful banners for "Digital Dream Utopia". Each banner has a unique design with flowers, butterflies, or abstract patterns, and the text "Digital Dream Utopia" and "Digital Dream Utopia".

Top Right: A map of the CERN facility in Geneva, Switzerland. The map shows the location of various particle accelerators and detectors: ALEPH, LEP, SPS, NA3, NA4, and the LHC. It also indicates the border between France (FR) and Switzerland (SWITZERLAND), major cities like Paris, Lyon, and Annecy, and surrounding landmarks like Divonne, Versoix, and Meyrin. A scale bar shows distances up to 5 km.
